The Wellness Center & the Mobile Wellness Services

This innovative program is based on the nationwide movement to integrate peer staff into mental health services, demonstrating the importance of self-empowerment and peer programs as part of mental wellness.

Mobile Wellness Services is a program geared towards offering Peer Support Services via wellness groups, group activities and community outings for our members.

Both TWC and MWS utilizes the evidenced based practice of Wellness Recovery Action Plan (WRAP) groups to assist individuals with improving their quality of life and develop wellness tools that can assist them in their journey towards regaining independent living.

With WRAP:

- Our members discover simple, safe, and effective tools to maintain wellness
- Develop a daily plan to stay on track with their life goals
- Identify what throws them off track and develop a plan to keep moving forward
- Gain support and stay in control even in a crisis
