On average, in 2018, the cost of holding people in federal custody was \$102.60 per day per adult, or \$37,449 a year.

The average cost for psychiatric treatment in a community hospital ranges from \$3,616 to \$8,509, depending on the type of illness being treated. A simple calculation reveals that for an adult, the cost of 35 to 83 days in prison would provide the financing of a hospitalization that would have a better chance of bringing about recovery.
